GURUKUL DEGREE COLLEGE National Youth Day

"If I love myself despite
my infinite faults,
how can I hate anyone at
the glimpse of a few faults."

SWAMI VIVEKANANDA

12th. Jan. 2021

Swami Vivekananda

The Indian EXPRESS

12th. Jan. birth day of Swami Vivekananda every year is celebrated as National youths Day which aims to create awareness among the national youth generation to instill exceleancy in nation building activities. The theme for the year 2021 is "Channelizing Youth for National Building"

Youth generation is inspired to engage in national building activities contributing for the welfare of the society, betterment of all sections of the society and more particularly vulnerable section of the society.

"Arise, Awake and stop not till the goal is reached"

"All power is within you; you can do anything and everything."

"Take risk in your life, If you win, you may lead., If you loose, you may guide"

quotes of Swami Vivekanand if deployed , you may find miracle.

Savitribai Phule

Savitribai Phule born on 3rd. Jan 1831 was the first female teacher of India's first women's school. She was a pioneer in the field of women's education and at the forefront of imparting education to all people. She fought against the atrocities of the upper caste and persistently fought for the welfare of women. She played an important role in changing the face of education in India and in throwing light on things that mattered. She opened a school for girls from lower caste and in the midst of conventional tabues she did all that protect and promtes the welfare of women. Even the British government acknowledged her efforts.

"Education is not filling the mind with a lot of facts. Perfecting the instrument and getting complete mastery my own mind is the ideal of education."

- Swami Vivekanand

Netaji Subhash Chandra Bose Birthday

Netaji Subhash Chandra Bose was born on January 23, 1897. He was a great freedom fighter and was the first to resurrect the Indian army called Azad Hind Fauj and rebelled against British rule. Bose joined the Indian conference under the influence of Gandhiji. He was a very powerful man and his liberation movements are greatly remembered. Bose Jayanthi is celebrated in schools across the country inspiring patriotism among students. Some of is quotes are -

"Patriotism is motivated by the highest values of the human race, Saty [truth], Shivam [God], Sundaram [the good]."

"A true soldier needs military and spiritual training." "You will easily understand my attitude as I stand on the threshold of what a person on the street might call a promising career."

"One person may die for a certain thought, but that idea, after his death, will engage in a thousand lives." "Soldiers who remain loyal to their nation, who are always ready to give their lives, are invincible."

Martyrs' Day is witnessed every year on 30th January every year to mark the death anniversary of the father of the nation Mahatma Gandhi. The Martyrs' Day is popularly known as "Shaheed Diwas" to pay homage to the valiant Freedom Fighters of India who laid their lives in the struggle for India's independence.

Significance of Martyrs' Day:

The Father of the Nation Mahatma Gandhi was assassinated by Nathuram Godse on this day in the year 1948, one year ahead of India's independence. To pay a tribute to "Bapu", who urged citizens to follow the path of "Ahimsa" (Non-Violence). The Martyrs' Day is also observed in India on 23rd March every year to pay respect to the Bravehearts Bhagat Singh, Shivaram Rajguru, and Sukhdev Thapar, who was hanged death on this day in the year 1931 for the sake of their love for the motherland.

“ If education is identical with information, the libraries are the greatest sages in the world, and encyclopaedias are the Rishis .”

- Swami Vivekanand

February - 2021

Great Masters of All Times

Shri Ramakrishna Paramahansa was born on 18 February, 1836 in the small village Kamarpukur, some miles away from Kolkata in a poor Brahmin family. His childhood name was Gadadhar and was loved by the villagers. He is perhaps known as the best saint of nineteenth century. He was an ultimate mystic and a true yogi. He was a worshipper of goddess Kali and also believed to be a modern-day incarnation of Lord Vishnu but he never claimed about it. In the revival of Hinduism in Bengal he became a main figure as at that time Bengal was witnessing an intense spiritual crisis and severe downfall of Humanism. His preaching's attracted the atheist Swami Vivekananda who became a devoted disciple. He was given the title of 'Paramahmsa' by his vedantic guru, Totapuri, a naked monk from Punjab. At the age of 23 he married to five year old Saradmoni Mukhopadhyay, who later came to be known as Maa Sarada. When Saradmoni came of age and joined the sage at Dakshineswar, Ramkrishna had already entered the reclusive life of a harmit. He was devoted to Goddess Kali. His chief disciple Vivekananda formed the Ramakrishna Mission to propagate the philosophy of Vedant Movement.

"Women are all of them the veeritable images of shakti." "Knowledge leads to unity, but Ignorance to diversity." - Quotes.

Give a man a fish and you feed him for a day; teach a man to fish and you feed him for a lifetime. -- Maimonides

Charles Robert Darwin FRS FRGS FLS FZS was an English naturalist, geologist and biologist, best known for his contributions to the science of evolution. His proposition that all species of life have descended over time from common ancestors is now widely accepted, and considered a foundational concept in science. (Wikipedia)

12 February is celebrated every year as Darwin Day to commemorate the birth anniversary of father of biology Charles Darwin. This day high lights Darwins contribution to evolutionary and plant science.

Quotes

The expression often used by Mr. Herbert Spencer of the Survival of the Fittest is more accurate, and is sometimes equally convenient.

A man who dares to waste one hour of time has not discovered the value of life.

This Is What's Going To Happen In 2021 - Nostradamus Predicted It Centuries Ago

Nostradamus was a prominent French physician, seer and astrologer of 16th century. And like many of his colleagues back then, he also practiced astrology. He was very busy with predictions and made bold statements about the future. At least, they seemed bold at the time. Since then a ridiculous amount of his predictions have come true.

According to his followers he accurately predicted events like the world wars, communism, terrorism in Europe, and the rise of historical figures like Napoleon and Hitler. In the more recent past, his statements predicted the death of John F. Kennedy and even the coming of the recent

He is renowned for his book 'Les Propheties.' This book is a collection of 942 poetic prophecies that claimed to predict future events. This book was published for the first time in 1555, and since his death the book has never been out of print. The prophecies expanded and retold by Nostradamus has been in popular culture in the 21st and 20th centuries. His writings and life have remained a subject of interest for people.

Great Masters of All Times

Frederick Winslow Taylor

- "The Father of Scientific Management"
- Born in 1856 in Germantown, Pennsylvania
- Obsessed with order and control
- Piece rate system Increased productivity among factory workers
- Philosophy known as Taylorism
- Died 1915

Frederick Taylor's life (1856-1915)

- ◆ Frederick Winslow Taylor, was born on March 20, 1865, into an upper class liberal Philadelphia family.
- ◆ His father a lawyer and his mother a feminist both believed in high thinking and plain living.
- ◆ Taylor was always counting and measuring things to figure a better way of doing something.
- ◆ At age twenty-five, Taylor earned an engineering degree at the Stevens Institute of Technology in New Jersey.

1. B 2.A 3. D 4. E 5. C
6. A 7. E 8. D 9. C 10.E

- ◆ Worked as a machinist and pattern maker in Philadelphia at the Enterprise Hydraulic Works, then became a common laborer at the Midvale Steel Company.
- ◆ He started as shop clerk and quickly progressed to machinist, foreman, maintenance foreman, and chief draftsman.
- ◆ Within six years he advanced to research director, then chief engineer.

Taylor's five Principles of Management

1. Develop a science for each element of an individual's work, which will replace the old rule - of thumb method.
2. Scientifically select and then train teach and develop the worker.
3. Heartily cooperate with the workers so as to ensure that all work is done in accordance with the principles of the science that has been developed.
4. Divide work and responsibility almost equally between management and workers.
5. Management takes over all work for which it is better fitted than the workers.

"In the past the man has been first; in the future the system must be first... The first object of any good system must be that of developing first class men".

.. Frederick W.Taylor.

Unity is strength..... when there is teamwork and collaboration, wonderful things can be achieved..... Mattie Stepanek

Padma Vibhushan
Prof. Udupi Ramchandra Rao
born on 10th. March 1932

The illustrious life and legacy of Prof U.R.Rao – of a humble village boy from a poor family from an obscure village near Udupi in Karnataka overcoming all the challenges & obstacles and garnering glory in the frontier space science, technology & applications, both nationally and internationally; and instrumental in building a prestigious institution of international standing like ISRO with its unique culture; and rising to the position as its Chairman and attaining international fame; and working tirelessly till his end in harnessing the benefits of space technology applications for national development - should continue to be a motivational force and a role model for many young aspirants in our country and elsewhere for generations to come.

*Life is a dream for the wise, a game for the fool,
a comedy for the rich, a tragedy for the poor -- Sholom Aleichem*

International Women's Day - 2021

Kalpana Chawla: A national hero, Kalpana Chawla was the first woman of Indian origin to go to space. Chawla had an inclination towards flying and aeroplanes since she was a child and would visit local flying clubs to watch planes with her father. She embarked on her first space mission in Space on 19 November 1997 with six crew members. The astronaut died on February 1, 2003, when the Space Shuttle crew perished during entry into Earth. She was posthumously awarded the Congressional Space Medal of Honor and has a dedicated supercomputer at NASA. She remains a huge inspiration for young girls and women interested in exploring space.

Mary Kom: It's time we stop stereotyping women as physically weak. Magnificent Mary or Mary Kom, an extraordinary Indian boxer, is a shining example of women's strength. She has collected a plethora of achievements under her belt. From the only female, boxer to have won a medal in each one of the first seven World Championships to the first Indian female boxer to win a gold medal in the Asian Games in 2014 at Incheon, South Korea. She is also the first Indian female boxer to win gold at the 2018 Commonwealth Games. Despite growing up in a poor household, Mary was able to climb to the top through her hard work and continued making history after marriage and motherhood as well.

Every home, every heart, every feeling, every moment of happiness is incomplete without you. Only you can complete this world. Happy women's Day"

*"The emerging women ... will be strong - minded, strong - hearted, strong - souled,
and strong - bodied... strength and beauty must go together." ... Louisa May Alcott.*

April - 2021

Great Masters of All Times

David John Snowden (April, 1954 - 2016) a management consultant and researcher in the field of "Knowledge management and the application of complexity of science. Snowden is the founder and chief scientific officer of Cognitive Edge, a singapore based management - consulting firm specializing in complexity and sensemaking. He was a BA graduate in philosophy from University of Lancaster and MBA from Middlesex Polytechnic in 1985. Snowden worked for Data Sciences Ltd from 1984 to 1997, the company was acquired by IBM in 1996 and set up IBM Global Services Knowledge and Differentiation Programme. Importance of story telling within organization, particularly in relation to expressing tacit knowledge. In 2000 he become a director of European company's Institute for Knowledge Management and in 2002 he founded the IBM Cynefin Centre for Organisational Complexity. Cynefin frame work a decision making tool is the outcome of his research work.

Snowden founded Cognitive Edge Pvt. Ltd. a management consulting firm based in Signapure and rendered as associate professor extraordinare at the University of Stellenbosch Business School and school of physcology at Bangor University.

Snowden authored several research articles and book chapters on the Cynefin framework, the development of narrative as research method and the role of complexity in sensemaking. In the year 2008 he along with co-author Mary E Bone won an "Outstanding Practioner - Oriented Publication in OB" award from the academy of management's Organizational Behavior division for a Harward Business review article on Cynefin. He has also contributed column on KMWorld on trends in technology "Everything is fragmented". He holds a position of editor - in chief of the journal Emergence: Complexity and organization.

Men are mortal. So are ideas. An idea needs propagation as much as a plant needs watering. Otherwise both will wither and die. Dr. B. R. Ambedkar

He travelled to more than 40 countries and obtained the best parts of the constitution from Japan, Russia, America and the UK and inculcated that into the Indian Constitution

A staunch believer in equality for all, Dr B.R Ambedkar renounced Hinduism because of its dangerous caste system and became a Buddhist.

Someone who has knowledge of economics, law and science, Dr. Babasaheb Ambedkar's contribution to forming the secular and democratic fabric of India goes a long way

The wide range of civil liberties like freedom of religion and freedom of expression that we as millennials enjoy today, comes from the visionary and long-term thinking of Babasaheb Ambedkar back in the 1940s

The reservation of jobs and seats in educational institutions for scheduled caste and Scheduled Tribes was another great work done by Babasaheb Ambedkar to uplift the unprivileged sections of the society.

The core values of the nation come from the constitution of the country and our constitution was written by Babasaheb Hansel and he is no less than any other freedom fighters like Mahatma Gandhi or Jawaharlal Nehru.

BR Ambedkar was a revisionary leader who envisaged the country where each and every person has equal opportunity irrespective of their caste, creed or religion.

Babasaheb Ambedkar dedicated his entire life to the freedom movement of India and eradicating social inequalities in the country.

Articles in the Indian Constitution such as article 15, where the minorities and less privileged in the country have equal opportunity, was scripted by B.R Ambedkar and the whole community owes a lot of gratitude to him.

He created the Indian Constitution keeping in mind all the aspects and the diversity

1. B 2. B 3. C 4. D 5. B
6. D 7. C 8. C 9. A 10.C

Cultivation of mind should be the ultimate aim of human existence.
Dr. B. R. Ambedkar

Great Masters of All Times

Swami Chinmayananda Saraswati, (born Balakrishna Menon; 8 May 1916 – 3 August 1993) was a Hindu spiritual leader and a teacher. In 1951, he founded Chinmaya Mission, a worldwide non-profit organisation, in order to spread the knowledge of Advaita Vedanta, the Bhagavad Gita, the Upanishads, and other ancient Hindu scriptures. Through the Mission, Chinmayananda spearheaded a global Hindu spiritual and cultural renaissance that popularised these spiritual texts and values, teaching them in English all across India and abroad. Chinmayananda was originally a journalist and participated in the Indian independence movement.

1. A 2. B 3. D 4. b 5. A
6. A 7. A 8. B 9. B 10. B

Under the guidance of Swami Sivananda and later Tapovan Maharaj, he began studying Vedanta and took the vow of sannyasa. He gave his first jñāna yajña, or lecture series about Hindu spirituality, in 1953, starting the work of the Mission. Today, Chinmaya Mission encompasses more than 300 centres in India and internationally and conducts educational, spiritual, and charitable activities.

Chinmayananda's approach was characterized by an appeal to the English-educated Indian middle class and Indian diaspora; he gave lectures and published books in English. Chinmayananda also helped found the Vishva Hindu Parishad (VHP), an Indian right-wing Hindu organization that is considered a member of the Sangh Parivar. In 1964, he convened delegates to create the VHP at Sandeepany ashram and served as the organisation's first president. He aimed to "awake(n) the Hindus and to make them conscious of their proud place in the comity of nations," saying that, "Let us convert Hindus to Hinduism, then everything will be all right."

Chinmayananda authored 95 publications, including commentaries on the major Upanishads and Bhagavad Gita. He was a visiting professor of Indian philosophy at several American and Asian universities, and he conducted university lecture tours in many countries.

Men are mortal. So are ideas. An idea needs propagation as much as a plant needs watering. Otherwise both will wither and die. Dr. B. R. Ambedkar

1 May: International Workers' Day

International Labour Day 2021. The day is dedicated to workers and labourers across the world, is also called the International Day of Workers or International Labour Day. May Day celebrates labourers and encourages them to be aware of their rights. International Labour Day on May 1 is a public holiday in many countries. The International Labour Organization, a United Nations agency, which works towards setting international labour standards, in a report, released on World Day for Safety and Health at Work said, "Countries need to put in place sound and resilient occupational safety and health systems that would minimize the risks for everyone in the world of work in the event of future health emergencies." In India it is also called "Shramik Divas or Karmic Divas"

History and Significance of International Labour Day

Labour Day or May Day honours the hard work of people across the world and celebrates their achievements. Labour Day has its origins in the labour union movement in the United States in the 19th Century.

In 1889, a body of socialist groups and trade unions, in the US designated May 1 as a day for workers. This was in remembrance of the Haymarket Riots in Chicago in 1886, when a labour protest rally turned violent after someone threw a bomb at the police. According to the history.com, "...at least eight people died as a result of the violence that day. Despite a lack of evidence against them, eight radical labour activists were convicted."

Gurukul Group of Institutions honours the hard work of workers and commemorate the achievements of workers. Promote their interest and supports in transforming their goals into achievements.

Cultivation of mind should be the ultimate aim of human existence.

Dr. B. R. Ambedkar

NEW BUSINESS TRENDS

1. The era of digital transformation

Digital Transformation is a business trend that has gained immense popularity over the last few months.

Before the pandemic, while some businesses invested significant time, effort, and capital into digital transformation, others weren't too concerned about digitalising their offerings. However, Covid-19 has forced organisations across the globe to take radical steps towards adopting technological advancements to secure their business. Almost all industries, ranging from retail, healthcare, hospitality, and education, will need to transform their business models to remain viable. Companies can no longer enjoy the comfort of operating 'business as usual'. In fact, even if an organisation is ahead of their competitors today, they still have to be prepared to embrace uncertainty, take calculated risks, keep abreast of the changing business trends, and leverage the newest digital technology. Failure to do so can disrupt their entire business model.

Tim O'Reilly

"Every industry and every organization will have to transform itself in the next few years. What is coming at us is bigger than the original internet and you need to understand it, get on board with it and figure out how to transform your business." -

- Tim O'Reilly, Founder and CEO of O'Reilly Media.

And that's why, accelerating digital transformation journeys, staying relevant in changing times, and embracing innovation to create breakthrough value, will become a top priority for businesses in the post-Covid world.

2. Health care reformation

There's no doubt that the Covid-19 pandemic has exposed major gaps in the healthcare systems of some of the most advanced nations in the world, such as the United States, France, and the United Kingdom.

In fact, in order to provide equitable care, the healthcare industry must undergo significant reforms.

Studies have revealed that, the cost of treatment and insurance are extremely high resulting a even before the pandemic, more than half of the citizens of the US with employer-sponsored health insurance delayed their treatment because of the additional costs. In a recent poll conducted, 68% of adults said that the cost of treatment would be extremely crucial to their decision to seek medical care if they had Covid-19. If that's the case, then failure to get treated prolongs the pandemic and exacerbates its economic impact, making the reformation critical. In response to this situation, pre-recorded videos with more options and animations are being used frequently, giving rise to Learning Management Systems (LMS) as well. Edtech platforms such as Byju's and Vedantu in India, that use IT tools to create an engaging and individualised learning experience is becoming the 'new normal' and will continue to challenge the traditional education system, one video at a time.

3. Growth of online education systems

The Covid-19 pandemic didn't just affect businesses — it affected the education system too. Many schools and educational institutions just weren't ready to take their classes online, causing a lot of unprecedented chaos and confusion. While children were missing school, online education systems became an emerging business trend. Schools across the globe have started implementing different online teaching platforms to suit their requirements. However, because this is an entirely new concept to many, the assessment of assignments, online exams, and making students understand complex concepts is a new challenge on the horizon.

"Since the lockdown, we have seen a four-fold increase in paid subscriptions. We also saw a growth in our web-traffic rising to more than 25M sessions in May, 2020, with an average of 800K sessions per day"

-- Zishaan Hayath, founder and CEO, Toppr.

I measure the progress of a community by the degree of progress which women have achieved.

- B. R. Ambedkar

Great Masters of All Times

Maharshi Patanjali

Patañjali (Sanskrit:) was a sage in ancient Tamilakam, thought to be the author of a number of Sanskrit and Tamil works. The greatest of these are the Yoga Sutras, a classical yoga text. There is doubt as to whether the sage Patañjali is the author of all the works attributed to him as there are a number of known historical authors of the same name. A great deal of scholarship has been devoted over the last century to the issue of the historicity or identity of this author or these authors.[WP]

1. B 2.B 3.A 4.A 5. A
6.B 7. B 8. D 9. B 10.B

The author of the Mahabhasya, an ancient treatise on Sanskrit grammar and linguistics, based on the Astadhyai of Panini. This Patañjali's life is dated to mid 2nd century BCE by both Western and Indian scholars. This text was titled as a bhasya or "commentary" on Katyayana-Panini's work by Patanjali, but is so revered in the Indian traditions that it is widely known simply as Maha-bhasya or "Great commentary". Their ideas on structure, grammar and philosophy of language have also influenced scholars of other Indian religions such as Buddhism and Jainism. He is compiler of the Yoga sutras, a text on Yoga theory and practice, and a notable scholar of Samkhya school of Hindu philosophy. The Yogasutras is one of the most important texts in the Indian tradition and the foundation of classical Yoga. It is the Indian Yoga text that was most translated in its medieval era into forty Indian languages. The author of a medical text called Patanjalantra. He is cited and this text is quoted in many medieval health sciences-related texts, and Patanjali is called a medical authority in a number of Sanskrit texts such as Yogaratnakara, Yogaratnasamuccaya and Padarthavijnana.

"The secret of change is to focus all of your energy, not on fighting the old, but on building the new.." ----- Socrates

23. Negotiating
24. Organization
25. Planning
26. Project Manmt.
27. Presenting
28. Technical skills
29. Administrative skills
30. Creativity Skills

Analytical Thinking

Analytical skills are the abilities which allow you to collect, organize, visualize, and assimilate data. They let you see patterns, draw conclusions, and find solutions that can boost your employee productivity and company's bottom-line performance. No employer can offer job unless analytical skills are found with candidates. Analytical skills consist of a set of abilities. That's why we're talking about skills, not a single skill. They can be treated as an umbrella term for a set consisting of such skills as: research, forecasting, problem solving, data mining, data and matrices interpreting, reporting, organization, communication, diagnostics, trouble shooting, creativity, theorizing and brain storming.

Interpersonal skills:

Interpersonal skills are a specific type of social skills. Interpersonal competencies help you interact, communicate, and collaborate with others effectively. Typical examples of interpersonal skills include empathy, active listening, and emotional intelligence.

Interpersonal skills permeate all areas of life and are equally important in both personal and professional interactions. Examples of Interpersonal skills - Communication, Conflict resolution, Decision making, Leadership, Relationship building, Mediation, Problem solving, Teamwork / Collaboration, Negotiation and listening.

Collaboration & Teamwork:

Collaboration skills, also called collaborative skills, are the skills you use when working with others to produce or create something or achieve a common goal. Collaboration skills aren't a skill set in themselves, but rather a group of different soft skills and behaviours that facilitate collaboration and teamwork. Collaborative & Teamwork skills may be of two types. Direct & Indirect Collaborative skills.

Direct Collaborative Skills are

* Active listening, Communication skills, Emotional intelligence (EQ), Patience, Non-verbal communication, open mindedness, Tolerance, Brainstorming, Compromising, Diplomacy, Empathy etc.,

Indirect Collaborative Skills are - Decision making, productivity system, Adaptability, writing skills, project management skills, organizational skills, critical thinking skills, time management skills, creativity skills etc.,

**“The body is your temple. Keep it pure and clean for the soul to reside in.”
- B.K.S Iyengar**

World Milk Day: Theme of World Milk Day 2021

Amid the pandemic, World Milk Day 2021 will be celebrated with a theme focusing on sustainability in the dairy sector along with empowering the environment, nutrition, and socio-economic. The objective is to spread the importance of milk and dairy products in the diet regularly. The day also notifies special importance for India as it is one of the largest producers of milk across the world.

Global Parents Day: Global parents Day is celebrated on **1st June every year.** Global Day of parents is celebrated in order to aptly recognize and honor parents across the globe for their selfless love and lifelong support towards their children.

5- June - World Environment Day:

World Environment Day is observed every year on June 5. It is one of principal vehicles through which the United Nations (UN) stimulates worldwide awareness of environment and enhances political attention.

The theme for World Environment Day 2021 is ‘Ecosystem Restoration’ and Pakistan will be the global host for the day. This World Environment Day will kick off the UN Decade on Ecosystem Restoration (2021-2030), a global mission to revive billions of hectares, from forests to farmlands, from the top of mountains to the depth of the sea. For too long, humans have been exploiting and destroying the planet’s ecosystems. Every three seconds, the world loses enough forest to cover a football pitch and over the last century, we have destroyed half of the wetlands.

Significance: It is very important to spread awareness about environmental issues like deforestation, increasing global warming, wastage and losses of food, pollution, etc. In the whole world, several campaigns are organized with a particular theme and slogan to bring effectiveness around the world. This day is celebrated to successfully reach carbon neutrality, reducing greenhouse effects, planting on degraded lands, energy production through solar sources, promoting coral reefs and mangroves, and many more issues.

21st. June The International Yoga Day is celebrated every year on June 21. The motto behind celebrating International Yoga Day is to spread awareness among people about the benefits of Yoga. The asanas in Yoga were designed by the Indian ancient experts in such a way that they are highly beneficial for different health issues.

This year, the theme for the event is “Yoga at Home and Yoga with Family”, in line with global concerns around the Covid-19 pandemic, emphasising the importance of maintaining good health, but within constraints of social distancing.

“Yoga is not just standing on your head...but learning to stand on your own two feet,” is credited to Integral Yoga Founder Swami Satchidananda.

“Yoga is not a religion, it is a science, science of well being, a science of youthfulness, a science of integrating body, mind, and soul.”

Great Masters of All Times

Jayachamarajendra Wadiyar born on July 18, 1919 in Mysore Palace. He was the son of Yuvaraja Kanteerava Narasimharaja Wadiyar and Yuvarani Kempu Cheluvaramani. He was the maharaja of the Kingdom of Mysore from 1940 to 1971. The monarchy of all dynasties across the united India was abolished in 1950, but he continued to hold the title of maharaja until 1971. He was also known as a philosopher, musicologist and political thinker. He was a famous Poet, Composer, Philosopher, Philanthropist. He died on September 23, 1974.

Jayachamarajendra, also known as Jayachamaraja Wodeyar, inherited his father's and uncle's love for music, as well as his father's deep understanding of divinity and spirituality. He was well versed in sports, was an ornithologist and was loved by his subjects. Several accolades came his way in recognition of his scholarship in multiple disciplines. The Annamalai University, and the University of Queensland in Australia, honoured him with the D.Litt., the Banaras Hindu University, Varanasi and University of Mysore with Doctor of Law, and the British government honoured him with the Knight Grand Commander (GCSI) and Knights of the Bath (GCB). He received the Ratna Sadasya or Fellowship of the Central Sangeet Natak Akademi in 1966. A Srividya practitioner

Jayachamaraja Wodeyar was initiated into the Srividya marga by sculptor and ascetic Siddhalinga Swami. He also constructed the majestic Kamakameswari temple in the Hoysala style in Mysore, where the principal deity was installed according to Shaktagama traditions. His deekshanama was "Chitprabhananda Rajayogindra". Wodeyar's compositions have numerous references drawn from the Srividya tradition.

*Coming together is a beginning. Keeping together is progress.
Working together is success." --Henry Ford. "*

The International Day of Cooperatives also commonly known as #CoopsDay will be commemorated on July 3 with the theme "Rebuild Better Together." Cooperatives from all around the globe will demonstrate how they are responding to the COVID-19 pandemic catastrophe with solidarity and resilience, while also providing communities with a people-centered and ecologically fair recovery.

Bruno Roelants, Director General of the International Cooperative Alliance (ICA), said that over the last year, we have seen how the cooperative model has contributed to people's well-being and environmental stewardship, highlighting what the cooperative movement stands for. "We will reconstruct better collectively, and I am convinced that we will witness many examples of how the cooperative movement can help communities grow stronger in the post-pandemic world," he stated.

Cooperatives are not a marginal phenomenon More than 12% of humanity is part of any of the 3 million cooperatives in the world!

The largest 300 cooperatives and mutuals report a total turnover of 2,146 billion USD, according to the World Cooperative Monitor (2020).

Cooperatives contribute to the sustainable economic growth and stable, quality employment, providing jobs or work opportunities to 280 million people across the globe, in other words, 10% of the world's employed population.

As member-owned, member-run and member-serving businesses, cooperatives empower people to collectively realise their economic aspirations, while strengthening their social and human capital and developing their communities.

The International Cooperative Alliance is one of the largest non-governmental organisations in the world today by the number of people it represents: more than 1 billion cooperative members from any of the 3 million cooperatives worldwide.

Cooperative Principles

1. Voluntary and Open Membership
2. Democratic Member Control
3. Member Economic Participation
4. Autonomy and Independence
5. Education, Training, and Information
6. Cooperation among Cooperatives
7. Concern for Community

1. B 2. B 3. C 4. D 5. B

Great Masters of All Times

SHRI AUROBINDO

Sri Aurobindo was one of the first Indians educated in England. He was a poet, thinker, freedom fighter, yogi and spiritual leader. He was born on 15 August 1872 in Kolkata, West Bengal.

He propounded a philosophy of divine life on earth and founded an ashram in Puducherry. His epic poem Savitri is one of the greatest works of him. His participation in the Indian freedom struggle against the British gave him popularity and gradually evolved to become a spiritual and yogic guru. He came up with a new path of spirituality known as 'integral yoga'. The main objective of his teachings was to increase the level of consciousness of people and to aware people of their true selves. He had written several books focused on Indian culture, socio-political development of the country, spirituality, etc

During the partition of Bengal (1905-1912), he led the group of nationalists. Later, he became the editor of a nationalist Bengal newspaper named Vande Mataram. He was also imprisoned in 1908 and two years later, he fled British India and found a refuge in the French Colony of Pondicherry (Puducherry). Here, he devoted himself for the rest of his life to the development of "integral yoga". His aim was to spiritually transform the life on earth.

Sri Aurobindo : Works In Pondicherry (Puducherry), Sri Aurobindo patrons were French couple namely Paul Richard and his wife Mirra Alfassa Richard (later she was the Mother of the Pondicherry (Puducherry) Ashram). He started publishing the monthly journal Anya with the assistance of his French friends. In the journal, he focussed on the divine destiny of humankind, unification of the human race, the spirit and the significance of Indian civilisation and culture. Later, he mentioned these articles in the Life Divine. He also wrote his epic poem Savitri in 23,813 lines of blank verse. Do you it is one of the longest poems in the English language.

Government of the people, by the people and for the people never perish on the earth"
- Abraham Lincon

The Quit India Movement also known as India August Movement or Bharat Chodo Andolan was launched at the Bombay session of the All India Congress Committee (AICC) by Mahatma Gandhi on August 8, 1942.

The protest was initiated to demand an end to the British rule in India. Since the movement was held in August it is also known as August Kranti or August Movement.

The movement was started on August 9, 1942, and since then the day is celebrated as August Kranti Day/Diwas. The day is celebrated by paying tribute to freedom fighters with national integration speeches and other events. Several national leaders like Mahatma Gandhi, Abdul Kalam Azad, Jawaharlal Nehru and Sardar Vallabhbhai Patel were arrested. The Congress was declared an unlawful association, leaders were arrested and its offices all over the country were raided and their funds were frozen. The first half of the movement was peaceful with demonstrations and processions. The peaceful protest was carried till Mahatma Gandhi's release.

The second half of the movement was violent with raids and setting fire at post offices, government buildings and railway stations. Lord Linlithgow adopted the policy of violence.

The Viceroy's Council of Muslims, Communist Party and Americans supported Britishers.

After the arrest of major leaders, young Aruna Asaf Ali presided over the AICC session. Despite several police warnings and government notices for banning public processions and assemblies, a large crowd gathered at Mumbai's Gowalia Tank Maidan where Aruna Asaf Ali hoisted the flag.

The final phase of the movement was marked on September 1942 where mobs getting together and bombings in government places of Mumbai and Madhya Pradesh.

The British refused to grant immediate independence and stated that it could only be granted after the war ended. Finally, India got independence in 1947.

"To survive in peace and harmony, united and strong, we must have one people, one nation, one flag". Pauline Hanson.

"Patriotism is your conviction that this country is superior to all others because you were born in it". - George Bernared Show.

" I have no country to fight for my country is the earth, and I am a citizen of the world". - Eugene V. Debs.

" Patriotism is supporting your country all the time, and your government when it deserves it".

Freedom is not given, it is taken” - Subhsah chandra Bose.

Women Freedom Fighters

Vijaya Lakshmi Pandit born on 18 August 1900 was a freedom fighter, an Indian diplomat and politician who was the first woman appointed to 6th Governor of Maharashtra and 8th President of of the United Nations General Assembly.

Hailing from a prominent political family, her brother Jawaharlal Nehru was the first Prime Minister of Independent India, her niece Indira Gandhi the first Prime Minister of India, niece Indira Gandhi the first female Prime Minister of India and her grand nephew Rajiv Gandhi was the sixth Prime minister of India. Pandit was set to London as India’s most important diplomat after serving as Nehru’s envoy to the Soviet Union, the United States and the United Nations. She became the first woman President of the United Nations General Assembly. Pandit traveled in the United States from late 1944 to early 1946, mainly on a lecture tour. Returning to India in January 1946, she resumed her portfolio as minister of local self-government and public health in the United Provinces. In the fall of 1946 she undertook her first official diplomatic mission as leader of the Indian delegation to the United Nations General Assembly. She also led India's delegations to the General Assembly in 1947, 1948, 1952, 1953, and 1963. Pandit was elected to India's Constituent Assembly in 1946. Shortly after India's independence in 1947, she joined the foreign service and was appointed India's first ambassador to the Soviet Union. In early 1949 she became ambassador to the United States.

Kamala Nehru, a staunch follower of Mahatma Gandhi, and the wife of Jawaharlal Nehru, was amongst the first freedom fighters who raised their voices for women empowerment. Smt. Kamala Nehru born on 1st. August 1899. She was instrumental in organizing women groups during the Non- cooperation Movement in 1921 and picketed foreign cloths and liquor stores.

It was after her marriage to Jawaharlal Nehru in February 1916 that Kamala Nehru took an understanding to the national struggle which had engulfed India and the politics that her husband was an integral part of Shedding all her inhibitions. Kamala Nehru emerged as a strong woman to provide leadership in the fight for freedom. The Non Cooperation Movement of 1921 saw Kamala Nehru's entry into the freedom struggle. She convinced a large number of women in Allahabad to join hands with her in picketing shops in the city that were selling foreign cloth and liquor. After Jawaharlal Nehru was put behind bars for not cooperating with the British government and planning to deliver a public speech aimed to malign the colonial rulers, it was Kamala Nehru who took the public podium in her husband's place and read out the entire speech that Jawaharlal Nehru was supposed to deliver. Such was the change after marriage in a girl who even a few years back was not only shy but also lacked basic knowledge in the English language. The British soon realized the threat that Kamala Nehru posed to them and how popular she had become with women groups all over India. She was thus arrested on two occasions for involvement in freedom struggle activities.

“It is the prime responsibility of every citizen to feel that his country is free and to defend its freedom is his duty” - Sardar Patel

General Knowledge

1. Who has been sworn in as the Governor of Manipur?
[A] Prem Singh Tamang [B] Jagdish Mukhi

Great Masters of All Times

Sarvepalli Radhakrishnan, (born Sept. 5, 1888, Tiruttani, India—died April 16, 1975, Madras [now Chennai]), scholar and statesman who was president of India from 1962 to 1967. He served as professor of philosophy at Mysore (1918–21) and Calcutta (1921–31; 1937–41) universities and as vice chancellor of Andhra University (1931–36). He was professor of Eastern religions and ethics at the University of Oxford in England (1936–52) and vice chancellor of Benares Hindu University (1939–48) in India. From 1953 to 1962 he was chancellor of the University of Delhi. Radhakrishnan led the Indian delegation to the United Nations Educational, Scientific and Cultural Organization (UNESCO; 1946–52) and was elected chairman of UNESCO's executive board (1948–49).

From 1949 to 1952 he served as Indian ambassador to the Soviet Union. On his return to India in 1952 he was elected vice president, and on May 11, 1962, he was elected president, succeeding Rajendra Prasad, who was the first president of independent India. Radhakrishnan retired from politics five years later.

Radhakrishnan's written works include Indian Philosophy, 2 vol. (1923–27), The Philosophy of the Upanishads (1924), An Idealist View of Life (1932), Eastern Religions and Western Thought (1939), and East and West: Some Reflections (1955). In his lectures and books he tried to interpret Indian thought for Westerners.

His contribution towards the field of education earned Dr. Radhakrishnan several awards, including the Bharat Ratna. He even received the Knighthood from the British emperor King George V in 1931 for his excellence in teaching. Three decades later, Dr. Radhakrishnan was even honored with an 'Order of Merit' by the royal folks of Britain.

*"Religion is behaviour and not mere belief."
"Teachers should be the best mind in the country."
"The true teachers are those who help us think for ourselves."*

"The ultimate self is free from sin, free from old age, free from death and grief, free from hunger and thirst, which desires nothing and imagines nothing." - S.Radhakrishnan

October - 2021

Dr. A.P.J. Kalam *Great Masters of All Times*
11th. President of India

PURA

Advocating the balanced availability of education for urban and rural areas, he enlightened all the sections of the society to go out and study.

After identifying the lack of educational resources to underprivileged people, he urged NGOs and other social-service institutions to lend a hand at equalizing the gap. He is known for his invaluable contributions to education which manifest in the form of thought-provoking quotes. One of them being: "Some of the brightest minds in the country can be found on last benches of the classroom".

There won't be an Indian millennial who hasn't heard of Dr. APJ Abdul Kalam, fondly remembered as the "Missile Man of India". Transforming his life from being a scientist, Dr. Kalam, born on 15th October 1931 rose to become the 11th President of India.

Known for his practical educational thinking, he was regarded as a visionary who stood up for the integration of modern educational ideas with those of the conventional practices. He strongly advocated the need for basic amenities for every school including safe drinking water, playgrounds and well-kept toilets.

After identifying the lack of educational resources to underprivileged people, he urged NGOs and other social-service institutions to lend a hand at equalizing the gap. He is known for his invaluable contributions to education which manifest in the form of thought-provoking quotes. One of them being: "Some of the brightest minds in the country can be found on last benches of the classroom".

Mr. Abhinav

"Live as if you were to die tomorrow. Learn as if you were to live forever." - Mahatma Gandhi

Mahatma Gandh & Lal Bahaddur Shashtri Jayanti elebrated on 2nd. Oct.2021.

Speaking on the occasion, Principal Sanjeev R. Patil appealed members of staff and students to submit their Tribute to national father Mahatma Gandhi and Shri. Lalbhadur Shashtri by practicing to their atleast one principle which enhances our own strength and in turn contributes in building strong India.

Mr. Asanketsingh illustrated the use of truth and non - violence in routine life style for healthy and happy life. The principles of truth and non-voilence can be passed on to the youths only by actual practice and not by preaching.

Mr. Sharnappa Halchera HoD of Kannada spoke on the life style of Lal bahadur Shashtri focusing his concern on the formers and armed forces with the slogan **"Jai Jawan and Jai Kisan"**

Great Masters of All Times

Ramana Maharshi Born on 30th. December 1879

Ramana Maharshi (1879 - 1950)

With an HPI of 72.72, His biography has been translated into 49 different languages.

Ramana Maharshi (30 December 1879 – 14 April 1950) was an Indian Hindu sage and jivanmukta (liberated being). He was born Venkataraman Iyer, but is mostly known by the name Bhagavan Sri Ramana Maharshi. He was born in Tiruchuli, Tamil Nadu, India. In 1895, an attraction to the sacred hill Arunachala and the 63 Nayanmars was aroused in him, and in 1896, at the age of 16, he had a "death-experience" where he became aware of a "current" or "force" (avesam) which he recognized as his true "I" or "self", and which he later identified with "the personal God, or Iswara", that is, Shiva. This resulted in a state that he later described as "the state of mind of Iswara or the jnani".

Six weeks later he left his uncle's home in Madurai, and journeyed to the holy mountain Arunachala, in Tiruvannamalai, where he took on the role of a sannyasin (though not formally initiated), and remained for the rest of his life. He attracted devotees that regarded him as an avatar and came to him for darshan ("the sight of God"). In later years an ashram grew up around him, where visitors received upadesa ("spiritual instruction") by sitting silently in his company asking questions. Since the 1930s his teachings have been popularized in the West, resulting in his world-wide recognition as an enlightened being. Ramana Maharshi approved a number of paths and practices, but recommended self-enquiry as the principal means to remove ignorance and abide in Self-awareness, together with bhakti (devotion) or surrender to the Self.

Few writings of Raman Maharshi:

1. Gambiram Sheshayya, Vichara Sangraham, "Self Enquiry" - 1901, republished in 1939 & 1944
2. Sivaprakasam Pillai, Nan Yar? Who am I? 1902 & 1923
3. Akshara Mana Malaai, The Marital Garland Letters - 1914
4. Navamani Malai, "The necklet of Nine Gems"
5. Arunachala Patikam, "Eleven Verses to Arunachala"
6. Arunachala Ashtakam, Eight Stanzas to Arunachala"
7. Arunachala Pancharatna, "Five Stanzas to Arunachala"
8. Ramana Maharshi Upadesha Sara ' Teachings"
9. Ulladu narpadue - "On Realty" 40 Verses -
10. Translated 42 verses from B.Gita to Tamil and Mal..

Men are mortal. So are ideas. An idea needs propagation as much as a plant needs watering. Otherwise both will wither and die. Dr. B. R. Ambedkar
